PROFILE

I am a Full Stack Developer with a solid foundation in web and app development. I am actively building my knowledge in Data Structures and Algorithms (DSA), exploring 3D web development with Three.js, and developing various projects. My goal is to leverage my technical skills to create innovative solutions and enhance user experiences.

WORK EXPERIENCE

HD Media Network   DEC, 2024 - JAN, 2025
Front-End Developer Intern

- As a Front-End Developer during my internship Iworked with HTML, Bootstrap, JavaScript, and React.js to build and enhance web applications.
- I contributed to UI/UX improvements, which led to a more engaging user experience, and optimized website performance, resulting in faster load times and smoother functionality.
